

Dog Fence Fighting / Fence Aggression: A **DEADLY** Game

What it is:

- a dangerous and stressful game of 2 or more dogs running back and forth with a fence barrier in between them - barking, scratching, growling, and displaying aggression toward each other

What it's NOT:

- a way for your dog to get exercise
- an innocent game your dog plays with the neighbor's dog

What can / will happen:

- your dog could act aggressively toward their siblings
- the fence fighting dogs **WILL** fight, given the chance
- costly vet bills
- destroyed relationships with your neighbors
- **DEATH** of your dog(s) and/or your neighbor's dog(s)

What to do:

- STOP fence fighting at all cost
- inspect your fence for possible defects and fix them
- talk to your neighbors if it's happening in your yard and work together to STOP it
- get help from a professional dog trainer
- engage a professional pet sitter to exercise your dog(s)
